

# FXUA Micro-Credentials

# FXUA *Badges*

## WHAT:

Micro-credentials (MCs) are competency and skills-based certifications that allow earners to showcase learning outcomes mastered during their educational or professional journey.

## WHY:

FXUA micro-credentials have been designed from foundational to advanced skills to help students and professionals achieve their learning goals cope with industry demands.

Micro-credentials verify and validate that the critical competencies and skills acquired have been achieved.

## WHO:

FXUA has partnered with a global digital badging platform, Credly, to provide earners with the ability to share their competency or skills-based micro-credential in the form of a digital badge.

## WHERE:

Earners are able to demonstrate levels of mastery of certain skills or abilities in the form of a digital badge on their ePortfolio or social media platforms, such as LinkedIn.

## HOW:

Affordable, flexible, and brief; micro-credentials provide earners with the opportunity to acquire - or further develop - competencies and skills that align with their educational needs and industry demands.

Our micro-credentials are embedded within FXUA undergraduate academic programs and can be earned at no additional cost. Our micro-credentials are also offered as standalone learning experiences for professional development at a low cost.

## CONTACT:

If you have any questions about our FXUA micro-credential offerings or badge issuance, please contact us at [badges@fxua.edu](mailto:badges@fxua.edu).
